Enlightening Pakistan with Quality Cables & Patriotic Spirit

Message from

Engr. Mian Safdar Hussain CEO COPPERGAT

Today is Pakistan's 75th Independence Day, which is celebrated by all Pakistanis inside and outside of the country. I would like to extend my sincere congratulations to all of my compatriots on this auspicious occasion, both on my own behalf and on behalf of CopperGat Cables and conductors. This day inspires us to reiterate our effort on sustaining and strengthening our polity of sovereignty and independence by serving as a reminder of the tireless work made by our ancestors for the eventual religious, economic, and socio-cultural independence of succeeding generations. We recognize and honor the confederate efforts of the Muslims under the leadership of Pakistan's founding leader, Quaid-e-Azam Muhammad Ali Jinnah, whose vision made Pakistan a reality on August 14, 1947. Thanks to the blessings

of almighty Allah, Pakistan currently has excellent investment potential. Asia's top commerce, energy, and transport corridor for the Gulf and Far Eastern areas are due to its geostrategic location. Tele-density in Pakistan, which has surpassed 125 million, reflects the country's rapidly expanding consumer market. I take advantage of this opportunity to encourage my business colleagues to put out great effort in their individual fields of expertise in this haven of peace in order to uphold their names and the names of their nations. Taking the privilege of this occasion to once again congratulate the people of Pakistan and to provide my best wishes and premises for the continuation of serving Pakistan with high-quality products and services to the best of our resources.

Pakistan Zindabad, CopperGat Pindabad.

THE MAINTAINERS

CEO MESSAGE

The 14th of August every year reminds us of the commencement of the Independence Day of our beloved homeland. Every year on this day, we pay reverence to the freedom fighters and legends who fearlessly fought for the separation of this heavenly abode on earth. The 75th Independence Day is celebrating with great enthusiasm and patriotic spirit. I would like to extend my message on the importance of unity, faith, and discipline in all walks of life. Every citizen of Pakistan is contributing to the progress and prosperity of the nation and we are committed to equally contribute through our quality industrial and engineering services, especially to the national and multinational sporting companies in Pakistan. Every day is bringing us a new challenge that we for the sake of Pakistan is taking in a new opportunity to deal with and moving ahead to vision to set beyond days to come and take this country from old odds and rough times. We are thankful to all our national and multinational clients and customers whose trust and support enabled us to become Pakistan's leading maintenance company with industrial solutions. I am indebted to Pakistan and I wish this country may progress by leaps and bounds. Any country or organization is determined by the actions it takes and the strategies that shape up those actions. This means that we cannot waste our forces on the basis of our current standing. You must have read case studies of corporations or brands ahead of their competitors but nowhere to be seen today. This is evidence that every moment, every day, and every decision decides the fate of an individual, an organization, and a country. So we must not take it for granted. Let us continue to work with honesty, dedication, and unity to take country to new heights of success. I wish all of you a Happy Independence Day!

Engr. Muhammad Shafiq
Chief Executive
